DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Millhimes et al. [US 4,740,167].

Millhimes et al. discloses a plug receptacle [figure 4d] comprising :

- a first aperture [208-d] in the receptacle for receiving the plug in a first orientation ;
- a second aperture [208-e] in the receptacle for receiving the plug in a second orientation;
- a third aperture [208-f] in the receptacle for receiving the plug in both the first orientation and the second orientation; and
- ground aperture [212] for receiving a grounding pin.

Allowable Subject Matter

Claims 1-7, 10-14 and 19 are allowed.

Claims 17-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
